Our investment philosophy and process

Our core investment philosophy has been in place since 1988. This has gradually evolved over time but has remained focused on the principle of good stewardship.

- > **Long-term:** We are long-term investors with a minimum ten-year mindset at the point of initial investment.
- > **Absolute return:** Investment risk for us is about losing clients' money and permanent loss, rather than deviation from any benchmark.
- > **Bottom-up:** We buy, on behalf of our clients, shares in real companies, rather than benchmarks or top-down market proxies.
- > **Sustainability:** We believe the sustainability positioning of companies drives investment returns and reduces investment risk.
- > **Quality:** We believe the quality of people, franchise and financials drives long-term returns and reduces risk.

We are benchmark agnostic. Our portfolios are high conviction with the top ten holdings typically representing 30-50% of the portfolio. Head over to our [Portfolio Explorer](#) tool which provides detailed information about each of our investee companies.
