Research Tender

Sustainable Sourcing of Soy

Purpose:

Stewart Investors would like to understand better the key sustainability issues in soy production and how these are addressed by companies.

Requirements:

1. A brief overview of the key sustainability issues around soy production.
2. An in-depth analysis of how each company is approaching these issues.
3. A relative ranking of the performance of each company.

Detours to be avoided:

- An in-depth analysis of the issues.

We are more interested in company performance and a relative ranking. Ranking is crucial. Please do not shy away from this.

Scope:

Approximately 10 listed companies that use soy: names to be supplied by Stewart Investors.

Maximum 20 page report.

Tender specifics:

Please submit a proposal by email (maximum of two pages) to siresearchtenders@stewartinvestors.com on how you would conduct this research, over what timeframe and for what price. In principle we support making your research report more widely available. However, we reserve the right to prohibit, or place restrictions on, such circulation if we believe that is appropriate. Closing date for application: 14 January 2019.
