

Stewart Investors Asia Pacific Sustainability Fund Class VI EUR

a subfund of First Sentier Investors Global Umbrella Fund plc (the Company) – Fund Factsheet

31 October 2024

Investment objective and policy

The Fund aims to grow your investment.

The Fund invests in shares of companies based in or where the majority of their activities take place in the Asia Pacific region excluding Japan and that are listed on exchanges worldwide.

The Fund invests in shares of high-quality companies which are positioned to contribute to, and benefit from, sustainable development. Investment decisions use a thematic sustainability approach and an assessment aiming to identify high quality companies based on three key points: (i) Quality of management. (ii) Quality of the franchise company including its social usefulness, their environmental impacts and efficiency and responsible business practices. (iii) Quality of the company's finances and their financial performance. Sustainability is a key part of the approach.

Pursuant to the EU Sustainable Finance Disclosure Regulation (EU 2019/2088), this Fund also has sustainable investment as its objective under Article 9.

Important Environmental, Social and Governance Information

The information below is environmental, social and governance (ESG) information which may help you to consider your investment in this fund from an ESG perspective. It is provided for information only. Any decision which you may take to invest money should take into account all aspects of the fund, more information on which can be found in our prospectus, which is on our website [here](#), and your investment needs.

ESG Portfolio Metrics	Portfolio	Benchmark
Portfolio Carbon Footprint* (tCO ₂ e/USD m invested)	14.1	101.1
Portfolio Carbon Intensity** (tCO ₂ e/USD m revenue)	52.4	253.5
Board Gender Diversity (average %)	23.0	23.6

Portfolio Carbon Footprint measures the sum of emissions of all investee companies at a portfolio level proportionally, based on how much of the investee companies' activities are financed by the investment manager. It is measured in tonnes of carbon dioxide equivalent (tCO₂e) per million invested.

Portfolio Carbon Intensity measures a portfolio's exposure to carbon-intensive companies, weighted by percentage exposure to each company. It is measured in tonnes of carbon dioxide equivalent (tCO₂e) per million revenue.

Board Gender Diversity represents the average ratio of female to male board members in investee companies, taking into account the relative importance of each company in the investment portfolio.

Top 5 Contributors to Emissions by Carbon Intensity

Company Name	Contribution (tCO ₂ /USD million revenue)
Ayala	8.2
Indian Hotels (IHCL)	4.3
TSMC	3.8
Tube Investments	3.5
Hoya	2.3

Data Sources

Carbon emissions data provided by ISS ESG Solutions. ISS ESG Solutions enable investors to develop and integrate sustainable investing policies and practices, engage on sustainable investment issues, and monitor portfolio company practices through screening solutions. This data includes estimates for companies who do not disclose emissions. For more information, visit: www.iss-esg.com.

Board gender diversity data provided by Morningstar Sustainability. Morningstar Sustainability supports investors around the world with the development and implementation of responsible investment strategies to incorporate ESG research, ratings, and data into their investment process. For more information, visit: www.sustainalytics.com.

* For emissions (footprint) reporting we have used the Partnership for Carbon Accounting Financials (PCAF) methodology which calculates an investor's share of scope 1 and 2 emissions for each company it invests in. Scope 1 covers all direct greenhouse gas (GHG) emissions from sources that are owned or controlled by the reporting entity. Scope 2 covers indirect GHG emissions from the consumption of purchased electricity, heat or steam. An investor's share is based on the amount invested over the Enterprise Value including Cash (EVIC). EVIC is the sum of total outstanding shares plus total outstanding debt, including cash. For example if an investor holds 10% of the company's EVIC, it is allocated 10% of the company's emissions. For investors this is sometimes called 'financed' emissions. To calculate the benchmark comparisons we have used the same approach by assuming benchmarks hold the same total value of investments as comparable strategies. We provide the total footprint, which is influenced the size of the total value of the investment strategy (shown in tonnes of CO₂-e) and on a 'per 1 million invested' basis, which is useful for comparison purposes.

** Carbon intensity is calculated as the weighted average of Scope 1 and 2 emissions per million of revenue of investee companies. The measure is commonly used to assess the carbon efficiency of an investment portfolio, however, there are many factors (e.g. commodity prices, currencies etc) that will influence company revenues and consequently its carbon intensity by revenues. The measure is most useful for companies in the same industry that generate revenues in the same currency. For most companies an activity or output based intensity measure is a better indicator of efficiency, however, this data is not commonly available.

We have taken reasonable care to ensure that this material is accurate, current, and complete and fit for its intended purpose and audience as at the date of publication. To the extent this material contains any measurements or data related to environmental, social and governance (ESG) factors, these measurements or data are estimates based on information sourced by the relevant investment team from third parties including portfolio companies and such information may ultimately prove to be inaccurate. No assurance is given or liability accepted regarding the accuracy, validity or completeness of this material.

To the extent this material contains any ESG related commitments or targets, such commitments or targets are current as at the date of publication and have been formulated by the relevant investment team in accordance with either internally developed proprietary frameworks or are otherwise based on the Institutional Investors Group on Climate Change (IIGCC) Paris Aligned Investment Initiative framework. The commitments and targets are based on information and representations made to the relevant investment teams by portfolio companies (which may ultimately prove not be accurate), together with assumptions made by the relevant investment team in relation to future matters such as government policy implementation in ESG and other climate-related areas, enhanced future technology and the actions of portfolio companies (all of which are subject to change over time). As such, achievement of these commitments and targets depend on the ongoing accuracy of such information and representations as well as the realisation of such future matters. Any commitments and targets set out in this material are continuously reviewed by the relevant investment teams and subject to change without notice.

Stewart Investors Asia Pacific Sustainability Fund Class VI EUR

a subfund of First Sentier Investors Global Umbrella Fund plc (the Company) – Fund Factsheet

31 October 2024

The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may get back significantly less than the original amount invested.

The Fund may experience the following risks:

Emerging market risk: Emerging markets tend to be more sensitive to economic and political conditions than developed markets. Other factors include greater liquidity risk, restrictions on investment or transfer of assets, failed/delayed settlement and difficulties valuing securities.

Currency risk: The Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund and could create losses. Currency control decisions made by governments could affect the value of the Fund's investments and could cause the Fund to defer or suspend redemptions of its shares.

Single country / specific region risk: investing in a single country or specific region may be riskier than investing in a number of different countries or regions. Investing in a larger number of countries or regions helps spread risk.

For further information on risks, please refer to the Risk Factors section in the Company prospectus.

Investment should be made on the basis of the Prospectus and Key Information Document. If you are in any doubt as to the suitability of any of our funds for your investment needs, please seek independent financial advice.

Important information

This factsheet is a financial promotion and advertising within the meaning of the Swiss Federal Financial Services Act (FinSA) and can be used for retail clients in the UK and in Switzerland. Distribution is limited to Professional Clients in all other countries where lawful.

† An initial charge of up to 7% may be levied in certain circumstances, including on regular savings plans and may be remitted as commission to an intermediary.

‡ The ongoing charge figure (OCF) is calculated on the same basis as for the Key Information Document and represents the charges you will pay over a year for as long as you hold your investment and may vary from year to year. The OCF is made up of the annual management charge and additional expenses, but excludes portfolio transaction costs. For further information about charges and costs please visit <https://www.firstsentierinvestors.com/uk/en/private/charges-overview.html>.
